Shared Barrier for Swimming Pools

Submit a separate form for each different adjacent property owner whom shares a fence used as a pool barrier.

Statement from Fence Owner

I acknowledge that my fence is being used to comply with the swimming pool barrier requirements for my neighbor's swimming pool. I must maintain a code compliant barrier in accordance with chapter 161 of the township code as long as my fence continues to serve as a pool barrier. Any changes or modifications to this barrier will require the issuance of a building permit by Moorestown Township Construction Office.

Statement from Pool Owner

I acknowledge that I am using my neighbors' fence to comply with the swimming pool barrier requirements for my swimming pool. If my neighbor removes the fence for any reason I am responsible to install and maintain a compliant pool barrier. I understand a building permit is required to install the new barrier (temporary emergency action to safeguard the public may be taken if necessitated by surprise removal of the fence by your neighbor) I understand that I am ultimately responsible for a code compliant barrier around my swimming pool.
